Serial No. 10/661,214

Part 2 - Remarks

This supplemental amendment updates the priority information concerning this divisional application. The amendment to the Introductory paragraph in Part 1 presents this information. This amendment is consistent with the information identifying the parent applications submitted in the original declarations presented upon filing the present application. Also attached is a new declaration for the present application which specifically recites the parent applications of the present application, upon which priority is claimed.

In view of this supplemental amendment and the Amendment and Response filed on February 20, 2007, it is believed that this application is now in condition for allowance. The Examiner is requested to contact the undersigned by telephone to discuss any issues which may inhibit the immediate allowance of the application.

Respectfully submitted,
